MEET TITAN WORLDWIDE — ONE OF THE NATION'S LEADING HEAVY HAUL SPECIALISTS

Titan Worldwide isn't your typical freight broker. We're your partners in trucking logistics, specializing in heavy hauls, heavy equipment transport, and breakbulk cargo. We know our stuff when it comes to hauling the toughest loads!

Our core strength lies in our years of experience handling challenging logistics tasks — primarily servicing vital industries such as Construction, Oil & Gas, Agriculture, Renewable Energy, and Mining. We offer customized, solutions-driven approaches to all of our clients. Our team's depth of experience means that our clients get honest, expert guidance — and our dedication means each project gets the attention it deserves.

Titan stands ready to serve your business with unmatched professionalism, integrity, and efficiency.

We haul the heavy stuff, the big stuff, the tough stuff. And we handle it with ease. If you have a complex transportation project, Titan is the right partner for the job. We thrive on difficult projects. From day-one planning until safe delivery, we are focused, consistent, and obsessed with providing exceptional service.

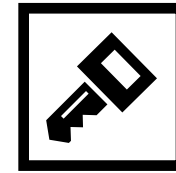

NO RED TAPE. JUST SOLUTIONS.

As a heavy hauling specialist, we've got the experience and the resources to handle the toughest shipments. But unlike the big brokers, we're nimble, personal, and the hardest workers in the room. That's why so many of our clients stay with us for the long haul.

Our systems are built to anticipate problems and respond quickly. When supply chain complications arise (and they will), you'll have a team in your corner who can actually give your shipments the attention they deserve and keep your supply chain moving.

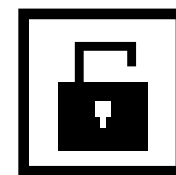

"AFTER WORKING WITH A FEW OTHER LOGISTICS COMPANIES IN THE PAST, WE FOUND THE TEAM WE WANT TO WORK WITH MOVING FORWARD—TITAN WORLDWIDE. THEY FIND SOLUTIONS TO PROBLEMS WE DIDN'T EVEN KNOW WE HAD."

HAULING IN AND OUT OF
REFINERIES CAN BE COMPLICATED
BUT TITAN MADE IT EASY.

Titan Worldwide Logistics was a pleasure to do business with. Extremely fast and reliable; provided competitive price, quality service, and most of all they communicated thoroughly. Had the pleasure to work with Jerrod Black, who stopped at nothing to make sure the process was seamless and our customers were satisfied, and their drivers were a good representation of the top notch service we provide. Very upbeat and professional throughout the entire process. Positivity is contagious and Jerrod makes sure that your experience is a positive one. Hauling in and out of refineries can be complicated but they made it easy. I definitely recommend their services! Ask to work with J Black. You wont be disappointed.

COMMUNICATION WAS PERFECT. NOT ONCE WERE WE LEFT “IN THE DARK.”

We hired Titan to move our 230 ton Manitowoc from Long Beach, CA to Aberdeen, WA. Their pricing was competitive. We hired them site unseen after a recommendation from the crane broker. Nearly immediately we knew Titan was the right choice. Jerrod “JB” Black had already googled the crane specs and figured out Titan could make the haul in 11 legal loads. We had assumed 12.

JB’s communication was perfect. Not once were we left “in the dark.” In short, I FULLY recommend Titan and JB Black. If the need ever arises we will absolutely use this group again.
